FY'22 Budget Performance Review District Attorneys Council 220

Lead Administrator: Trent H. Baggett

Lead Financial Officer: Timothy B. Webster

Agency Mission

The mission of Oklahoma's District Attorneys is to protect the public through proactively advocating as Ministers of Justice for public safety and welfare, and through educating and collaborating with communities, law enforcement and policy makers while supporting our staff through personal and professional development and peer support. The 27 District Attorneys are required to prosecute actions for crimes committed in their respective districts, and to prosecute or defend civil actions in which any county in their district is interested, or is a party.

Division and Program Descriptions

10 - Prosecutorial Services

The 27 elected District Attorneys of the State of Oklahoma are responsible for the prosecution of state crimes, all juvenile delinquency actions, actions involving abused or neglected children and mental health cases, as well as serving as legal advisor to the counties.

20 - General Administration

The District Attorneys Council provides general administrative support to the prosecutorial system by processing the personnel, fiscal and other financial operations of district attorney offices, by providing training and legal research support, by acting as liaison between the district attorney system and other parts of the criminal justice system, by providing general information and coordination of district attorney system activities as needed and by representing the district attorneys system as liaison to other areas of government.

41 - Child Support Services

Through Cooperative Agreements with DHS, 7 District Attorneys provide child support enforcement services, i.e. enforcing child support obligations by all available and appropriate civil and criminal remedies.

42 - Bogus Check/Restitution and Diversion

These programs are self-supporting systems of deferred prosecution, providing restitution to victims of crimes involving bogus checks and certain property crimes. They provide an alternative to traditional prosecution and incarceration of offenders through diversion of cases prior to filing through the court system. These alternative types of prosecution reduce costs of the prosecution, court, and correction systems. These programs are completely funded through fees and require no state appropriations. In recent years, funds derived from this program have assisted with temporarily prevented wide-spread furloughs and lay-offs. However, revenues have been decreasing in recent years as more merchants utilize electronic means to verify checks, and more offenders use debit cards.

43 - Federal Grant Programs

This activity encompasses federal grant funds which the District Attorneys Council and District Attorneys have been awarded or administer. Major programs include the Justice Assistance Grant (JAG), Violence Against Women (VAWA), and Victims of Crime Assistance (VOCA). The FY19 budget for the Council and the District Attorneys is approximately \$7.9 million within this program. These funds are intended to assist in providing case services or to enhance services provided by District Attorney offices.

The Council also has two discretionary grants within this agency, Victim Assistance Discretionary Grant Training Program for VOCA Victim Assistance and Improving Criminal Justice Responses.

44 - Uninsured Vehicle Enforcement and

Diversion Program

The Uninsured Vehicle Enforcement Diversion (UVED) Program is a state-wide initiative aimed at reducing the number of uninsured vehicles on Oklahoma roadways.

45 - Drug Asset Forfeiture

The Drug Asset Forfeiture program is a system of cooperative law enforcement activity at the local level in which assets used in illegal drug operations are forfeited. These assets, or the proceeds from the sale of these assets, go to District Attorneys and law enforcement entities involved in the seizures. The forfeited assets are used for drug enforcement, prosecution, prevention, and education.

50 - Federal Pass-Through Grants

The Council is designated by the Governor to administer the Byrne Justice Assistance Grant (JAG), Violence Against Women Act Grant (VAWA), Residential Substance Abuse Treatment Grant (RSAT), the Coverdell Forensic Science Improvement Grants (NFSIA), Sexual Assault Services Program (SASP), Victims of Crime Assistance (VOCA) and Project Safe Neighborhood (PSN). The Council also has three discretionary grants, NCIS Act Record Improvement Program (NARIP), Rural Domestic Violence, Sexual Assault, Dating Violence & Stalking Program (RURAL) and the National Criminal History Improvement Program (NCHIP) within this division.

These funds are received by this agency and disbursed to other applicants by Boards established to award the funds. The Council provides administration of the funds, including compliance with federal reporting requirements, monitoring and regulations regarding awards. Funds are used to provide grants to governmental and non-profit organizations to assist victims of crime, to further combat drug and violent crime, to provide enhanced services to crime victims, and to stop violence against women.

60 - Crime Victim Services

The primary purpose of this program is to provide compensation for economic losses sustained by persons who are injured in Oklahoma as a result of criminally injurious conduct. It is the mission of this program to provide statutory benefits to eligible victims of violent crime in a compassionate, efficient, and respectful manner. The funds used to assist victims of violent crime come from offenders at the state and federal levels. It is the intent of this program to provide a method of compensation for victims of crime that will provide financial relief for the victim and hold the offender accountable.

88 - Information Technology

The District Attorneys Council IT Division provides technical and computer services to all of the offices of the District Attorneys and the District Attorneys Council. In addition, it assists with providing information to the criminal justice system as whole.

1.) Are there any services no longer provided because of budget cuts?

No

2.) What services are provided at a higher cost to the user?

Not Applicable

3.) What services are still provided but with a slower response rate?

The district attorneys have not filled positions, have cut operating costs, and are utilizing all funding resources. For some districts, this has resulted in slower response times for certain cases and dockets.

4.) Did the agency provide any pay raises that were not legislatively/statutorily required?

Each district attorney evaluates pay on a regular basis based on performance and his or her individual fiscal situation.

Does the agency have any costs associated with the Pathfinder retirement system and federal employees?

Yes, the agency currently has estimated expenses for FY21 totaling \$24,424 for retirement funding issues with the Pathfinder system. This issue will only continue to grow as more employees retire and new employees are on the Pathfinder system.

How would the agency be affected by receiving the same appropriation for FY '22 as was received in FY '21? (Flat/ 0% change)

A zero or no change in appropriation could be considered the same as a decrease or reduction to state appropriations. Because of the cost of operations and the associated expenses including salaries and benefits, a zero budget has almost as much impact as a reduction due to the inability to compete for competent employees, meet critical IT needs, etc. Service will be provided at approximately same level. Inability to replace staff reduced by budget cuts in the last few years.

How would the agency handle a 2% appropriation reduction in FY '22?

A reduction of 2% would have a very negative impact on the district attorneys and the services that they provide. Currently all of the district attorneys are utilizing non-appropriated funding sources to assist with maintaining operations but these resources have been depleted in many instances by the previous reductions that have occurred over the past 10 years. A reduction in operating budgets will lead to reduced services to citizens of the state. All legislative pass trough's will be reduced by 2%.

Federal Government Impact

1.) How much federal money received by the agency is tied to a mandate by the Federal Government?

All federal funding received by the District Attorneys Council is tied to strict grant guidelines established by the federal government. Inherent in the grant programs are rules which guide the use of the federal funds but there are no mandates prior to applying for and accepting federal grant funds. There is not a "mandate" per se which is required if federal funds are not available.

2.) Are any of those funds inadequate to pay for the federal mandate?

Federal funds are used to supplement duties and services provided.

3.) What would the consequences be of ending all of the federal funded programs for your agency?

Due to many types of grants administered by the agency, public safety would be significantly and negatively impacted. In addition, the District Attorneys Council would not be able to maintain the same level of services to crime victims. Many of the victims service agencies currently funded with federal funds would have to close or try to find resources in the community or through the legislature to comply with state mandates for victims services.

4.) How will your agency be affected by federal budget cuts in the coming fiscal year?

There will be some impact to certain programs but it is impossible to predict the reductions as each program is addressed at the federal level in different ways. What is known is that as fewer programs are implemented, the impact on public safety can and will be significant depending on the individual program. It will have a negative impact on public safety and will be significant depending on the individual program.

5.) Has the agency requested any additional federal earmarks or increases?

No. All grants are formula grants or discretionary grants. There is no provision in the federal guidelines to request earmarks or increases. In the event of a mass casualty incident, such as the bombing of the Murrah building, supplemental awards are possible.
