What changes did the agency make between FY'25 and FY'26?	
<p>1.) Are there any services no longer provided because of budget cuts? Despite a 20% budget reduction in FY23, the agency has continued to provide all core services , however, these cuts have resulted in the following operational impacts: a.) Reduction of CLO Office Rent Revenue . To meet expenditure obligations the agency reduced its lease rates to cover costs rather than charging market value and reducing distributable beneficiary revenue by \$240,000 annually. b.) Unfilled Critical FTE Vacancies. Budget constraints have prevented the agency from filling essential full-time positions, hampering the staff's ability to respond to internal and external requests timely or completely, work on special projects, evaluate processes and potential revenue streams, and to ensure proper internal controls.</p> <p>2.) What services are provided at a higher cost to the user? While actual costs do not directly impact agency users, limitations on staffing have affected operational efficiency, customer service, and the agency's ability to deliver timely and detailed reporting.</p> <p>3.) What services are still provided but with a slower response rate? The agency continues to provide all core services; however, reporting and customer service—both internal and external—are often delayed due to staffing limitations.</p> <p>4.) Did the agency provide any pay raises that were not legislatively/statutorily required? A market adjustment of 3% across the board was given to staff in August 2024. Any additional pay raises given in FY2025 were targeted and related to promotions or additional duties assigned.</p>

No
* Include the total number of federally funded FTE in the Pathfinder system.

How would the agency be affected by receiving the same appropriation for FY '27 as was received in FY '26? (Flat / 0% change)

Flat funding in FY '27 would place additional strain on agency operations and staff capacity, potentially resulting in slower response times and missed opportunities to enhance efficiency and generate revenue.

How would the agency handle a 2% appropriation reduction in FY '27?

A 2% appropriation reduction in FY '27 would further limit the agency's ability to provide timely and complete services, delay modernization initiatives, and reduce overall operational efficiency
