Serving Local and Global

OUR STORY...so far

Who We Are

MISSION

To be a global visionary of business insight through innovative technologies. We transform data into useful information and useful information into action.

VISION

We enable success by harnessing valuable information.

WHAT DRIVES US

At BIS, we are not an average company. We have fun while we get things done. Our eight core values are a way of life and empower our mission and vision. They guide the jobs we do and the way we choose to do the work.

JOHN MATLOCK JR.
VP Client Relations

MICHAEL RUSNACK
Director of Human Resources

What We Do

BIS has built a solid reputation as a full-service information technology provider and integrator of high-quality document and data management systems. Our solutions portfolio is one of the most diverse and trusted in the industry.

Grooper

Grooper is a data capture solution that automates governance and eliminates manual indexing by using modern capture technology, natural language processing, and machine learning.

Grooper Case Study

See how Grooper used OCR and document capture technology to save and digitize over 15 million pages of priceless historical data at a state government agency.

Grooper®

About

Serving some of the worlds largest companies solving the hardest data integration problems from Oklahoma. People make all the difference.
